SLUM AND GHETTO STUDIES:

A RESEARCH BIBLIOGRAPHY

PREFACE

In the intellectual world, the compilation and publication of a research bibliography is not generally considered as a scholarly enterprise. In my personal opinion, such works are best judged in terms of their usefulness and service to the research scholars who need them. My primary objective in compiling this bibliography on slum and ghetto studies is to achieve that goal.

The present bibliography contains nearly 200 selected references including many from the following areas on slum and ghetto studies: (1) concept of slums and ghettos, (2) racial segregation, (3) ghetto development, (4) living conditions in slums, (5) slum pathology, (6) solutions to slum and ghetto problems, (7) slum and ghetto studies in general, etc. The references listed in the bibliography are by no means definitive, nor are they meant to be, but they represent many of the old and current publications which may be used as guides for further research on this subject. The bibliography is divided into two parts: Part One contains the listing of books in that area and Part Two is a listing of articles appearing in the social science journals and other periodicals.

The main sources of compilation of the bibliography were local, regional, national and international journals and/or periodicals and books reporting research findings on the subject matter of slum and ghetto studies. To keep the listing to a workable length, I have selected and included only those references appearing chiefly between 1920-1971. The listings are arranged by the author in alphabetical order both for the articles and also for the books.

A number of persons deserve my thanks for their help with this compilation, without whose cooperation this work would have not been completed. I especially wish to thank my wife, Mrs. Yogesh Sharma, for help in compilation and Mrs. Hershel Marks for typing the bibliography and Mrs. Mary Vance, Editor, Council of Planning Librarians, for her encouragement, editorial assistance and financial help that partially supported this work. The sole responsibility for any errors and/or omissions is mine.

It is my hope that those engaged in various aspects of slum and ghetto studies and their solutions will find this reference work a useful and informative instrument.
